贺 信

FROM
LORD TODD, F.R.S
PROFESSOR OF ORGANIC CHEMISTRY.

UNIVERSITY CHEMICAL LABORATORY,
LENSFIELD ROAD,
CAMBRIDGE.
TELEPHONE: 56491.

10th May, 1966.

Professor Y.L. Wang,
Institute of Biochemistry,
Academia Sinica,
320 Yo-Yang Road,
Shanghai, CHINA.

Dear Professor Wang,

I have to thank you for your kindness in sending me a reprint of your article on "The Total Synthesis of Insulin". This I am delighted to have and I send my warmest congratulations to you and your colleagues on a magnificent piece of work.

Yours sincerely,

英国剑桥大学有机化学教授, 托德勋爵(诺贝尔奖获得者)
给王应睐所长的贺信

Professor Tsao Tien-chin
Institute of Biochemistry
Academia Sinica
Shanghai,
People's Republic of China

Dear Professor Tsao,

After returning home by a very pleasant sea voyage Hong Kong-Genua I wish to thank you for all your kindness and hospitality shown to my wife and myself during our visit to Shanghai.

It was a very interesting experience to see the beautiful work done in biochemistry, "Materia Medica" and related fields and I was very much impressed both by the results obtained, the organization of the work and the good equipment available. Naturally, I was particularly interested to obtain first hand information about the beautiful work on the synthesis of insulin and I was grateful for your "last minute" reprint, which I have studied. The very fine collaboration between different groups, including many young and obviously enthusiastic research workers is most impressive.

Sincerely yours,

Arne Tiselius (Sgd)

Professor Niu Ching-I
Institute of Biochemistry
Academia Sinica
S h a n g h a i / CHINA

Dear Professor Niu,

Thank you very much for your very kind sending of reprints
(two of each) of your publications in Sci. Sinica

"Successful synthesis of crystalline insulin
from its natural A-chain and the synthetic
B-chain"

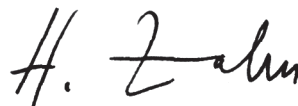

"Total synthesis of crystalline bovine
insulin"

On behalf of my colleagues and students and myself I want to
congratulate you, your colleagues and yourself for the out-
standing achievement in the first synthesis of a crystalline
hybrid insulin and the first total synthesis of crystalline
insulin.

We wish you a good 1966. In the case that yourself or one
of your colleagues comes to Europe I would be very glad to
invite you or him to give a paper in Aachen on your insulin
synthesis.

I remain with best wishes,

Yours very sincerely,
